

# Make your recovery a little easier...

## with these fine products from TDP Products, LLC

### **DryCast Covers**

*Wondering how you're going to shower? Wishing you could swim or soak in the tub?*

*DryCast Covers are the answer!*

DryCast Covers are recommended by doctors for showering and bathing to keep your cast or dressing dry, and are available in 2 styles. Both style covers are reusable, and with normal care, will last 6-8 weeks. They are available in sizes to fit everyone!

The Original DryCast Covers have a simple to use, patented diaphragm ring that stretches over the cast or bandage and forms a watertight seal against the skin. The Original DryCast Cover is non-latex and has a polyvinyl bag that prevents water from penetrating.

The DryCast Swim Cover is the answer to keeping your cast dry in the shower, tub, AND pool! It is easy to put on, comfortable to wear, and simple to remove. DryCast Swim is made of natural latex, making it soft and flexible. Simply pull the DryCast Swim Cover on and let go. It will create it's own seal. To submerge, simply burp out as much air as you can. This is easily done by slowly submersing the limb in water while opening the top of the cover just enough to allow the air to escape.

### **ThermoActive Mobile Hot/Cold Compression Therapy Supports**

*Accelerate healing with ThermoActive!*

Benefits of ThermoActive Mobile Compression Therapy Supports include:

- Mobile, custom fit compression section is easily adjusted for 'total contact'
- Easy to put on and adjust
- Custom gel pack interface provides intimate fit with minimal skin breakdown
- Custom gel pack may be used for cold and/or heat therapy
- Light weight, washable and reusable

Each Compression Support includes a bulb and gel pack, and extender straps for the sizes that are compatible. Replacement/Extra gel packs, pumps & extender straps available.

### **NatraCure Therapeutic Pain Relief Products**

*A better solution for pain relief*

NatraCure Therapeutic Pain Relief Products are simple, safe, and effective mess-free.

Arthritis Mitts & Booties use microwaveable gel inserts and are ready in 5 minutes or less. They help increase circulation and relieve aches and pains due to arthritis and other maladies.

Hot/Cold Plantar Fascia Relief Socks contain full foot gel packs that are microwaveable and freezer safe. Used cold, they help reduce swelling and are perfect for plantar fasciitis, heel or arch pain, and tired aching muscles. Used hot, they help improve circulation for cold or aching feet, and are perfect for chronic pain.
